Classic has been known as Classic *nostalgie* since 2017! We have redesigned our product range – and you will benefit from this!
In this connection, the prices for the Classic *nostalgie* models were both completely repositioned and made much more interesting. Just take a look in our complete catalogue for 2018 - you will be surprised!

I / 2018

AC versions also have:

50129 DR BR 41 Steam locomotive Ep. III; Reko-boiler
50429 DR BR 41 Steam locomotive Ep. III; Reko-boiler, 3 Rail AC

II / 2018

AC versions also have:

51060 DR BR 230 Electric locomotive Ep. IV

III / 2018

51057 DR BR 242 Electric locomotive Ep. IV

In 1935, AEG supplied four shunting locomotives of the E63 series. The distinctive construction with a long front end on the one side and a short front end on the other side were characteristic of this loco which should initially be put into service in considerably larger quantities. However, due to the outbreak of World War II, there was no further delivery of the manoeuvrable shunting loco.

After a long period of time, a finely detailed PIKO model of an E63 of DRG in AEG design is produced. This model is to scale and prototypical in all details. With detailed replica of the SBS10 current collector, extremely fine spoke wheels, finest casing engravings, detached roof cables, detached sand pipes on the wheel plane, metal rods.

III / 2018

AC versions also have:

51077 DRG BR E63 Electric locomotive Ep. II
51277 DRG BR E63 Electric locomotive Ep. II, 3 Rail AC

be attached to the flex track to achieve
a perfect connection between flex track
and the following regular tracks.

PIKO SmartControl*light*

The affordable, comfortable digital controller by PIKO for beginners, enthusiasts and experts

> Using PIKO SmartControl*light* it is possible to control DCC locomotives, switch magnetic items and activate routes

The attractive starter sets with realistically compiled trains are the ideal opportunity to enter the digital world of PIKO SmartControl*light* - at an excellent price-performance ratio! Here, long-lasting pleasure is guaranteed thanks to the robust, detailed models combined with a well-thought-out track system!

59006 SmartControl*light* Starter Set DB AG ICE 3 Ep. VI
III / 2018

The set includes:
 1 x ICE 3 with 2 traction units and 2 cars
12 x 55212 Curved track R2 422 mm (16.6 in.)
 6 x 55201 Straight track 231 mm (9.1 in.)
 1 x 55275 Connection clip
 1 x Track connection cable
 1 x 55289 Portable Rerailer
 1 x 55017 PIKO SmartControl*light* set
 1 x Operating manual

Length of train: 1142 mm

Floor space: around 182 x 95 cm (6 ft x 3.2 ft.)
Minimum floor space assembly:
192 x 105 cm (6.3 ft. x 3.5 ft.)

Highlights PIKO SmartControl*light* digital controller:

• **Ergonomic hand controller:** Model railroad operation should be fun! Thus, a good and permanent operability of the hand controller is important! The PIKO SmartControl*light* has exactly the right shape and the optimum weight for optimum amusement while playing! With a user-friendly arrangement of the control elements and a sensitive, robust rotary control, up to 24 special locomotive functions are comfortably switchable.

• **Clearly arranged display:** A display has to provide all necessary information in an eye-friendly way. With the high-contrast and logically structured display of the PIKO SmartControl*light* hand controller, all relevant data can be read optimally – even under difficult light conditions.

• **Plug and Play:** The logical structure of PIKO SmartControl*light* allows a foolproof, contemporary installation and use. Thus, full railroading fun arises from the very first moment!

• **Up to 20 locos individually controllable at the same time:** Operating several locos simultaneously is fun. In order to avoid that the central controller is running out of steam immediately, PIKO SmartControl*light* has a max. output current of 2 A. If the system grows, it is possible to add suitable boosters.

• **Full DCC compatibility with 14, 28 and 128 regulating steps:** Open communication is important to us! Thus, PIKO SmartControl*light* has full DCC compatibility and can - of course - also be combined with the PIKO SmartControl system via LocoNet!

• **Comprehensive loco database:** Up to 9,999 locomotive addresses can be saved

• **Switch magnetic items:** Of course, it is also possible to operate switches and signals using PIKO SmartControl*light*. In this connection, there are almost no limits since more than 2,000 magnetic items can be switched in DCC.

• **Routes:** A first automation of the train operation is also possible with PIKO SmartControl*light*! For this purpose, the magnetic items can be grouped to logical units.

Enjoy operating the new PIKO SmartControl*light* digital controller!

59011 SmartControl*light* Starter Set DB AG 2 Trains BR 185 and BR 218 Ep. VI
III / 2018

Length of train: 708 mm

Length of train: 680 mm

The set includes:

|	
1 x **Diesel Locomotive BR 218**	1 x 55222 Curved switch, left
2 x IC Passenger cars	1 x 55223 Curved switch, right
1 x **Electric locomotive BR 185**	1 x 55275 Connection clip
3 x High-side gondolas	1 x Track connection cable
14 x 55212 Curved track R2 422 mm (16.6 in.)	1 x 55289 Portable Rerailer
9 x 55201 Straight track 231 mm (9.1 in.)	1 x 55017 PIKO SmartControl*light* set
3 x 55200 Straight track 231 mm (9.1 in.)	1 x Operating manual

Floor space: around
182 cm x 95 cm (6 ft. x 3.2 ft.)
Minimum floor space assembly:
192 cm x 105 cm (6.3 ft. x 3.5 ft.)

III / 2018

**59007 SmartControl**light **Starter Set DB Passenger train BR 218 with 2 Passenger cars Ep. IV**
Length of train: 708 mm

The set includes:

1 x Diesel Locomotive BR 218
2 x IC Passenger cars
12 x 55212 Curved track R2 422 mm (16.6 in.)
6 x 55201 Straight track 231 mm (9.1 in.)

1 x 55275 Connection clip
1 x Track connection cable
1 x 55289 Portable Rerailer
1 x 55017 PIKO SmartControllight set
1 x Operating manual

Floor space: around
158 cm x 88 cm (5.2 ft. x 2.9 ft.)
Minimum floor space assembly:
168 cm x 98 cm (5.5 ft. x 3.2 ft.)

II / 2018

**59008 SmartControl**light **Starter Set DR Passenger train BR 119 with 3 Reko Passenger cars Ep. IV**

Length of train: 674 mm

The set includes:

1 x Diesel Locomotive BR 119
3 x Reko Passenger cars
12 x 55212 Curved track R2 422 mm (16.6 in.)
6 x 55201 Straight track 231 mm (9.1 in.)

1 x 55275 Connection clip
1 x Track connection cable
1 x 55017 PIKO SmartControllight set
1 x Operating manual

Floor space: around
158 cm x 88 cm (5.2 ft. x 2.9 ft.)
Minimum floor space assembly:
168 cm x 98 cm (5.5 ft. x 3.2 ft.)

III / 2018

59009 SmartControllight **Starter Set ÖBB Passenger train Rh 2016 with 2 IC Passenger cars Ep. V-VI**
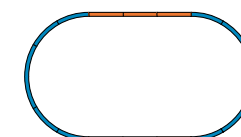

Length of train: 749 mm

The set includes:

1 x Diesel Locomotive Rh 2016 ÖBB
2 x IC Passenger cars
12 x 55212 Curved track R2 422 mm (16.6 in.)
6 x 55201 Straight track 231 mm (9.1 in.)
1 x 55275 Connection clip

1 x Track connection cable
1 x 55289 Portable Rerailer
1 x 55017 PIKO SmartControllight set
1 x Operating manual

Floor space: around
158 cm x 88 cm (5.2 ft. x 2.9 ft.)
Minimum floor space assembly:
168 cm x 98 cm (5.5 ft. x 3.2 ft.)

III / 2018

59005 SmartControl*light* Starter Set NS Intercity BR 185 with 2 Passenger cars Ep. VI

Length of train: 750 mm

The set includes:
1 x Electric locomotive BR 185
2 x IC Passenger cars
12 x 55212 Curved track R2 422 mm (16.6 in.)
6 x 55201 Straight track 231 mm (9.1 in.)
1 x 55275 Connection clip
1 x Track connection cable
1 x 55289 Portable Rerailer
1 x 55017 PIKO SmartControl*light* set
1 x Operating manual

Floor space: around
158 cm x 88 cm (5.2 ft. x 2.9 ft.)
Minimum floor space assembly:
168 cm x 98 cm (5.5 ft. x 3.2 ft.)

II / 2018

59002 SmartControl*light* Starter Set PKP Intercity Taurus with 2 Passenger cars Ep. VI

Length of train: 750 mm

The set includes:
1 x Electric locomotive Taurus
2 x IC Passenger cars
12 x 55212 Curved track R2 422 mm (16.6 in.)
6 x 55201 Straight track 231 mm (9.1 in.)
1 x 55275 Connection clip
1 x GTrack connection cable
1 x 55289 Portable Rerailer
1 x 55017 PIKO SmartControl*light* set
1 x Operating manual

Floor space: around
158 cm x 88 cm (5.2 ft. x 2.9 ft.)
Minimum floor space assembly:
168 cm x 98 cm (5.5 ft. x 3.2 ft.)

II / 2018

59004 SmartControl*light* Starter Set DB AG Freight train BR 185 with 3 cars Ep. VI

Length of train: 616 mm

The set includes:
1 x Electric locomotive BR 185
3 x Freight cars
12 x 55212 Curved track R2 422 mm (16.6 in.)
6 x 55201 Straight track 231 mm (9.1 in.)
1 x 55275 Connection clip
1 x Track connection cable
1 x 55289 Portable Rerailer
1 x 55017 PIKO SmartControl*light* set
1 x Operating manual

Floor space: around
158 cm x 88 cm (5.2 ft. x 2.9 ft.)
Minimum floor space assembly:
168 cm x 98 cm (5.5 ft. x 3.2 ft.)

**59118 PIKO PREMIUM Train Set
NS ICE3 and Diesel Freight**
III / 2018

Length of train: 1142 mm

**Locos include
PIKO Sound Decoders**

PIKO Sound

Length of train: 770 mm

The Set includes:
1 x **Diesel Locomotive G1206 NS**
4 x **Freight Cars**
1 x **ICE3 - 4 parts NS**
12 x 55212 Curved Track R2 422 mm (16.6 in.)
12 x 55201 Straight Track 231 mm (9.1 in.)
4 x 55200 Straight Track 239 mm (9.4 in.)
8 x 55213 Curved Track R3 483 mm (19.0 in)

2 x 55222 Curved Switch, left
2 x 55223 Curved Switch, right
1 x 55275 Power clip
1 x 55289 Portable Rerailer
1 x 55041 PIKO SmartController
1 x PIKO SmartBox

1 x PIKO Lanyard
1 x Power supply 32 VA / 16-18 V
1 x USB charger + cable
1 x Track connection cable
1 x Manual

Floor space: around 192 x 98 cm
(6.3 ft x 3.2 ft.)
Minimum floor space assembly:
202 x 108 cm (6.6 ft x 3.5 ft.)

55054 PIKO SmartMeasure Car ÖBB
The PIKO H0 SmartMeasure Car is an absolute innovation in the area of model railroading! Finally, it is possible to measure a complete system - precisely to the centimetre and, in case of ascents, precisely to per mill! In combination with a mobile app (*Android) or a PC, the measurement data and information can be displayed live via WLAN. Graphical evaluations, inter alia, can be displayed on a PC and average speeds can be determined! Thus, it is possible to perform exact measurements even in invisible system areas. Here, we have installed high tech in an attractive wagon model. It can be very easily integrated into a train set - even without a measurement.

NEW

The PIKO SmartDecoder 4.1 Sound is a universal digital decoder of the latest generation with 8 channels and 12-bit sounds, multiple light functions and a 1.2 amp motor control. The PIKO SmartDecoder 4.1 Sound masters common DCC formats with Rail-ComPlus®, Motorola® and Selectrix® programing. It is mfx-capable and can also be used on analog systems.
The SmartDecoder 4.1 automatically recognizes your system's operating mode. Up to 44 additional digital functions can be called up. Locomotive and railroad sounds such as engine and running sounds, horns, brake squeal, station announcements, switching operations and more can be separately activated! Sound function is also possible in analog mode, but it is limited to engine noise.

PIKO SmartDecoder 4.1 Sound:

56400 PIKO SmartDecoder 4.1 I / 2018
PluX22 DCC

Description:
The PIKO SmartDecoder 4.1 PluX22 DCC is a DCC digital decoder of the latest generation with multiple light functions and a 1.1 amp motor control. The PIKO SmartDecoder 4.1 masters DCC data formats with Rail-ComPlus and can also be used on analog layouts. The SmartDecoder automatically recognizes the respective operating mode. Up to 44 additional functions can be called up.

Common properties:
• DCC, DC Analog operation
• Automatic recognition of operating mode
• Continuous motor current of 1.2 A
• Motor peak current of 2.0 A
• 7 additional special function outputs
• Total function current outputs of 0.4 A
• Function Mapping up to F44
• Shunting mode
• Programmable motor characteristics
• Braking distance modes
• Short-circuit and overheating protection
• Size: 22x15x38 mm

56401 PIKO SmartDecoder 4.1 I / 2018
PluX22 with mfx-capability

Description:
The PIKO SmartDecoder 4.1 PluX22 with mfx-capability is a universal digital decoder of the latest generation with multiple light functions and a 1.1 amp motor control. The PIKO SmartDecoder 4.1 masters common DCC data formats with Rail-ComPlus®, Motorola® and Selectrix® programing. It is mfx-capable and can also be used on analog layouts. The SmartDecoder automatically recognizes the respective operating mode. Up to 44 additional functions can be called up.

Common properties:
• Automatic recognition of operating mode
• DCC, MM, Sx, mfx-capable, AC and DC Analog operation
• Continuous motor current of 1.2 amps
• Motor peak current of 2.0 A
• 7 additional special function outputs
• Total function current outputs of 0.4 A
• Function Mapping up to F44
• Shunting mode
• Programmable motor characteristics
• Braking distance modes
• Short-circuit and overheating protection
• Size: 22x15x38 mm

56402 PIKO SmartDecoder 4.1 I / 2018
PluX16 multiprotokoll

Description:
The PIKO SmartDecoder 4.1 PluX16 with mfx-capability is a universal digital decoder of the latest generation with multiple light functions and a 1.1 amp motor control. The PIKO SmartDecoder 4.1 masters common DCC data formats with Rail-ComPlus®, Motorola® and Selectrix® programing. It is mfx-capable and can also be used on analog layouts. The Smartdecoder automatically recognizes the respective operating mode. Up to 44 additional functions can be called up.

Common properties:
• Automatic recognition of operating mode
• Betriebsarten DCC, MM, Sx, AC, DC
• Continuous motor current of 1.2 A
• Motor peak current of 2.0 A
• 2 additional special function outputs
• Total function current outputs of 0.25A
• Shunting mode
• Programmable motor characteristics
• Braking distance modes
• Short-circuit and overheating protection
• Size: 20x11x38 mm

These Sound-Locomotives come factory equipped with a Sound Decoder and a large speaker. The multi-protocol Sound Decoder supports mfx® and RailComPlus®. Numerous functions are available. Locomotive and railroad specific sounds like engine and driving noise, horn signals, brake- and curve squeal, rail joints, announcements and many more can be triggered individually. Additionally the lights dim during the engine start sequence and the rear lights can be controlled separately. Motor sounds are available in analog mode as well.
